While Mountain Highway® performs most often in mid-Atlantic states, they're available to participate in events anywhere they're requested. They've performed at more than a hundred venues from New York to Nashville.

Advertising: Mountain Highway promotes their appearances with paid social media ads to approximately 40,000 followers and to other highly targeted prospective attendees.

Promotional Material: Download the band's onesheet and other printable graphics at mountainhighway.com/press.

Sound: Mountain Highway prefers to use its own professional sound system with a wireless mixer, mics, and instruments. Wherever possible, it's best to run connections out from the band's system to the "house" system's mixer and speakers. A stage plot is available at mountainhighway.com/press.

Accommodations: All associated costs are included in band compensation.

Finances: Even though the performers are young, their expenses are very real. They enjoy making music, but make no mistake – it's hard work, and their instruments, sound equipment, and travel expenses are very costly. Therefore, your support is greatly appreciated.

Requests: To book Mountain Highway, call (434) 248-0298 or visit mountainhighway.com/requests.
